Sanskrit language is the most ancient language. It is also called '*Dev Bhasha*'. It is a **living language** and spoken as a primary language in some villages in India. It is taught in a large number of schools.

Sanskrit is the **root language** of many Indian languages like Hindi, Marathi, Bengali, Punjabi, Gujarati, Maithili, Assamese, Odia, Nepali etc.

Sanskrit compositions were **orally transmitted** by methods of memorization of the '*slokas*' and '*verses*'.

Development of Reading Skill of Sanskrit is essential for learning this language.

To develop Reading Skill of Sanskrit Language, the present video book has been created based upon

Ruchira– Vol 1II, the NCERT Text book for class VIII. The word meaning is also discussed .

Hope the students of class VII will develop Reading Skill of Sanskrit text by this Video Book.
